

## Legacy Pumps

The Legacy Pump is just that—a legacy of the finest in high-pressure pump engineering and innovation, the product of nearly 100 years of combined expertise. Because the high-pressure pump is the single most costly component of a pressure washer, next to the drive mechanism, we do not take lightly our choice of pump for our pressure washer line. Nor should you. Here are just a few of the innovations that set apart Legacy from other high-pressure pumps today:
